AvaPremium Lift & Slide Aluminum-Clad

A uPVC lift & slide door clad in aluminum on the outside, with a 5-chamber profile and a standard 2-1/16" triple-glazed package. It runs with 2 to 4 panels and carries panels up to 882 lb.

PERFORMANCE

Thermal insulation	**U-factor 0.13**
Sound insulation	**45 dB**
Security	**Multi-point locking for break-in protection**
Weather resistance	**Weather resistant, strong outside noise reduction**

TECHNICAL DATA

Profile	**uPVC, 5 chambers, 8-9/16" construction depth**
Exterior finish	**Aluminum cladding on the outside**
Max size (2 panels)	**204-3/4" x 102-3/8"**
Max glazed area (2 panels)	**129 sq ft**
Max panel weight	**882 lb**
Panel configurations	**2 to 4 panels, multiple fixed and sliding combinations**
Glazing	**Standard triple glazing, 2-1/16"**
Sliding system	**Lift & slide roller system**
Operation	**Roller system for easy handling**
Hardware	**Lift & slide hardware**
Locking	**Multi-point locking, break-in protection**
Reinforcement	**Steel reinforcement for added strength on larger sizes**
Stability	**High dimensional stability of the uPVC profiles**

Warranty	**5 years**
Recyclability	**Recyclable**

OPENING TYPES

- Lift & slide
- Sliding

OPTIONS

- **Glass**: Burglar-resistant glass, tempered safety glass, a range of frosted glass.
- **Configurations**: 2 to 4 panels, with multiple combinations of fixed and sliding panels.
- **Hardware**: Modern lift & slide hardware with multi-point locking.
- **Colors**: White, woodgrain finishes, matte, metallic or two-tone. Shown in cream, light gray, dark gray, black, walnut, pine, red and green.
- **Aluminum cladding colors**: Exterior aluminum cladding in a near-unlimited color range (separate cladding color chart).
